Closing date of

Public Comments: October 24, 2017

Document Number: TR 033

Document Title: Terms and Definitions in Bloodstain Pattern Analysis

Note: a specific Proposed Resolution must accompany each comment or it cannot be considered.

#	Commenter	Section	Type of Comment (E-Editorial, T-Technical)	Comments	Proposed Resolution	Final Resolution
1	Fons Chafe	2.3	T-Technical	"acute" refers to less than 90° angle. The proposed definition would not include all 90° impacts	Delete "acute"	Accept.
2	Tonya Hackenbrook		T	Mist Pattern has been omitted	Add in the definition of Mist Pattern	Reject. Mist Pattern is a term generally found in a dictionary and does not need to be defined
3	Tonya Hackenbrook		T	Definiton should be given for Gravity-Induced/Passive Category	Gravity-Induced Bloodstain - Bloodstain pattern with physical features indicating they were created by the effects of gravity.	Reject. This term is not applicable to this document. Drip stain covers this concept.
4	Jacinthe Prévost	general	E	Some definitions have change since 2009 and one term has been added	use the latest version, some definitions have chance. The list is available on line at www.swgstain.org/resources	The terms in this document were taken from the current version of the SWGSTAIN terminology document. No resolution needed.
